ABOUT this season the farmer is sowing his oats in the country, while the young rounders are getting in the same kind of work in Maysville.

One province in Cuba reports but 10,000 cattle, against 700,000 before the War. That's a shortage not easily remedied. Time and peace are the requisites, and these will come.

A NEW YORK Judge has decided that singing is not a nuisance. Of course not, but when a man who thinks he sings, but, in fact, does not have how, how is it with him?

NO FREE TRADE or Democratic Journal has ventured to deny that business and industrial conditions have greatly improved under the Dingley Law. No speaker at any of the Jackson or Jefferson banquets attempted to break the force of

the story of prosperity told in the figures of Government reports, says the Chicago Inter Ocean. One Democratic newspaper has been at pains to collect statistics showing that 700,000 wage earners are employed and paid a result of improved trade conditions.

These reports, collected not by a Republican Administration nor by a Republican newspaper, but by a leading organ of the Democratic party, show that there has been a general advance in wages among iron and steel workers and among operatives of cotton and woolen mills of New England. In the iron, steel and allied industries 300,000 workmen are said to have received increases from 10 to 25 percent. The increase of wages in the New England mills applies to 140,000 operatives, and Bradstreet's reports that over 200,000 wage earners are affected by the increase.

The War with Spain did not prostrate business in any state or section, and the withdrawal of so many volunteers from civil life did not produce any embarrassment. In many industries there was increased activity during the War, and since the close of the War more workmen are being engaged in the foundry and wood-working industries and in the wagon building and implement making trades.

Business began to improve soon after the Dingley Law was enacted, and the improvement has continued in spite of war. There is likely to be still greater improvement because of the opening of Porto Rico, Cuba and the Philippines to our trade and because of our increased prestige and influence in Europe and Asia. With Cuba under our flag, and the Caribbean Sea, our trade with South American Nations will be larger than ever before. For three years the Spaniards were engaged in crippling our gulf commerce. With the disturbing influences removed there should be greater activity in Gulf and Atlantic ports, and with Hawaii and the Philippines in our possession there must be greater activity on our Pacific coast. The improvement of business is bound to continue, not only to the advantages of the workmen, but all classes.

# THE IDAHO RIOTS. MACABE BE TAKEN AN EXPERIMENT.

One Thousand Strikers Seize a Train at Burke and Go to Wardner.

CARRIED 3,000 POUNDS GIANT POWDER.

Through a Mistake the Miners Opened Fire on Their Own Pickets and One Was Killed.

Soldiers of the Department of California Out—They Are Under Command of Gen. Merritt—A Columbus, O., Company With Them.

WARDNER, Idaho, May 2.—A mob of about 1,000 rioting miners on a strike seized a train at Burke, at the head of Canyon creek, and came here, bringing with them 3,000 pounds of giant powder.

One hundred and forty masked members of the mob made an attack with Winchesters on the buildings of the Bunker Hill and Sullivan Mill mines.

Pickets had been sent on ahead and a signal shot from one of them was mistaken for a hostile demonstration. Straightway the strikers opened fire on their own pickets. Jack Smith one of the pickets was killed. Jim Gayne was fast hit. Jim Gayne was a Bunker Hill and Sullivan miner, and was carried off by the strikers. J. Rogers, a stenographer, was shot through the lip. The giant powder was divided into five blasts, by the last of which the Sullivan mill was destroyed.

After three hours of rioting the mob boarded the train and steamed away. The non-union employees have taken to the hills. The cause of the strike was the demand of the union miners for more money for the discharge of all non-union men. The first request was granted by the mine owners, but the second was refused.

SPokane, Wash., May 2.—General Manager Burbridge, of the Warne mines, accompanied by his family and Superintendent Burch, arrived here from Wardner Sunday night.

They were compelled to walk over the hills to Wardner in the dark because they were in a pitiable condition when they reached Spokane. Every post commander in the department of California has received orders to hold troops in readiness to start for Wardner at a moment's notice. The railroads have been notified to have special trains ready. No actual orders to go have yet been received.

Chicago, May 2.—All the troops in the department of the mines have been ordered to Wardner. Idaho. The scene of the miners' troubles, according to Gen. S. M. B. Young, now in Chicago. There are but seven companies, comprising about 500 men, in the department at present, two troops of cavalry and a battery of artillery at Ft. Sheridan, and the remaining companies divided between Columbus barracks, O.; Ft. Wayne, Detroit, and Bay City, Northern Michigan. Gen. Merritt has been ordered to take command.

DETROIT, May 2.—Gen. Merritt and his aide-de-camp, Lieut. J. L. Bennett, have left for Wardner to investigate the miners' riot.
